Education

Indian Institute of Information Technology, Ranchi *2024 – 2028*
B.Tech in Computer Science and Engineering CGPA: 9.03 (till 4th sem)

Technical Skills

Languages: C++, JavaScript, Python
Core CS: Data Structures & Algorithms, Object-Oriented Programming, DBMS fundamentals
Backend: Node.js, Express.js, REST APIs, Socket.IO, JWT Authentication and Authorization
Frontend: React.js, HTML, CSS, Tailwind CSS, Shadcn UI
Cloud/Databases: MongoDB
Developer Tools: Git, GitHub, Cloudinary, Vercel, Render, Postman

Competitive Programming & Achievements

Winner — CP Rumble 2026 Team Captain, "404 Brain Not Found" *9 Feb 2026*
– Secured 1st place in a competitive programming contest organized by the Training & Placement Cell, IIIT Ranchi.

- **LeetCode**: 1968 peak rating, Knight, 1000+ problems solved.
- **Codeforces**: 1418 peak rating, Specialist.
- **CodeChef**: 1775 peak rating, 3-star.
- **Codolio**: 2000+ problems solved and 115+ contests participated in across platforms.

Personal Projects

StayEase — Full-Stack Vacation Rental Platform *May 2026 – Aug 2026*
Tools: React, Node.js, Express.js, MongoDB, Cloudinary, Razorpay, Leaflet

GitHub | Live Demo

– Designed and built a full-stack rental marketplace supporting property discovery, bookings, reviews, favourites, and role-based host/guest workflows.
– Implemented **JWT-based authentication** with role-based authorization, protected routes, email verification, and profile management.
– Built a host dashboard with booking management, property management, revenue statistics, ratings, and review analytics.
– Engineered date-overlap validation to prevent double-booking and integrated the **Razorpay** payment gateway with server-side order creation and HMAC-SHA256 signature verification.
– Integrated **Cloudinary** for image management and **Leaflet** for interactive property maps; added transactional email via Nodemailer/Resend.

PulseChat — Real-Time Messaging Platform *June 2026 – July 2026*
Tools: React, Node.js, Express.js, MongoDB, Socket.IO, Tailwind CSS, Shadcn UI

GitHub | Live Demo

– Built a real-time messaging platform supporting one-to-one and group conversations with persistent message storage in MongoDB.
– Implemented **Socket.IO**-based real-time communication for instant messaging, typing indicators, online presence, and message delivery/read receipts.
– Developed authenticated, protected REST APIs for users, chats, messages, and media uploads using Node.js and Express.js.
– Added unread-message counts, presence status, and group-chat management with a responsive, mobile-first UI in React and Tailwind CSS.
– Structured the frontend with reusable components and context-based state management for authentication, chats, and socket connections.

Positions of Responsibility

Coordinator — Competitive Programming Club, IIIT Ranchi *2025 – Present*
– Mentor juniors in DSA and competitive programming, helping them strengthen problem-solving skills and prepare for coding contests.

Crafting Lead — Kriti (Art & Craft) Club, IIIT Ranchi *2026 – Present*
– Lead the organization of college-wide cultural events and the annual fest, coordinating student teams and managing event logistics.
